

Total Logistics Emissions Accounted by CJ Darcl

0.00 kg CO2e

Emission of CHROMENI STEELS LIMITED

Start Date: 01 May 2026

End Date: 07 May 2026

Method Used: Road & Rail

Emission Averted By Rail: 0.00 kg CO2e

Disclaimer: Calculation methodology and reporting of logistics GHG emission is accredited by GLEC (Global Logistics Emission Council) Framework 3.2 released by Smart Freight Centre and based on ISO 14083 Principles. The shipper is enabled to track shipment level emission from the vehicle. Precision of the result and reported emission are subject to the accuracy of input materials at the time of display and circulation.
